REF: STATE 37867

1. EmbOff delivered letter 3 p.m. March 13. After taking translation to another room, LO returned and made following statement, reading from Chinese notes translating to Polish as he read:
2. That treason and flight of former diplomat LIAO Mo-Shu purposely engineered and inspired by American Government is fact impossible to deny. It was serious anti-Chinese incident. Your Government and leader of your country have always carried out imperialist policy, aggressive policy, and have always conducted themselves in manner unfriendly to Chinese people. Not only Chinese people condemn you, whole world condemns you. He who carries on anti-Chinese and anti-human activities will certainly come to bad end, will certainly meet with appropriate punishment. 13th meeting in series could not have taken place. Your side carried full responsibility. Letter will be sent to our Government.
